Summary

Senior Full-Stack Engineer with over 5 years of experience designing, developing, and delivering scalable web and mobile applications across international teams. Expert in modern JavaScript frameworks (React, Angular, Next.js), backend technologies (Node.js, NestJS, Django, Python), and cloud-based solutions (AWS, Docker). Proven track record leading full-stack projects from architecture to deployment, integrating AI, microservices, and automation pipelines to solve complex business problems. Adept at mentoring teams, optimizing workflows, and driving high-quality software delivery while maintaining clean, maintainable code and scalable system architectures.

Technical Skills

- **Front-end:** React, Next.js, Angular, Redux, NgRx, NgXS, RxJS, Tailwind CSS, ShadCn, Angular Material, Bootstrap, Zustand
- **Back-end:** Node.js, Express.js, NestJS, Python, Django, RESTful APIs, GraphQL
- **Mobile Development:** React Native, Expo
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Cloud DevOps:** AWS (EC2, S3, RDS, Lambda), Docker, CI/CD pipelines, Git, microservices architecture
- **AI Automation:** Python pipelines, Airflow DAGs, AI content moderation, web scraping, workflow automation
- **Languages:** JavaScript, TypeScript, Python
- **Other Tools:** Agile/Scrum methodologies, Jira, project management, debugging performance optimization

Work Experience

Reckon Digital

Senior Software Engineer (Contractor)

England (Remote) — December 2025 • Ongoing

- Maintain and enhance web applications built with **Python, Django, and React**, including code refactoring and performance improvements
- Review and optimize backend systems and RESTful APIs, ensuring reliability and scalability
- Develop and manage **Python data pipelines** integrated with **Apache Airflow (DAGs)** for automation and analytics
- Containerize applications and pipelines with **Docker** and support deployment on **AWS cloud infrastructure**
- Collaborate with **international teams**, providing technical reviews, debugging, and maintainable solutions

SoBiapi

Development Team Lead

Remote — Jul 2022 – Present

- Led and mentored a distributed team of developers, overseeing project planning, delivery, and Agile ceremonies (sprint planning, standups, retrospectives).
- Conducted code reviews, enforced coding standards, and optimized Git workflows for smoother collaboration.
- Designed, developed, and maintained backend services using **Node.js**, **Express.js**, and **MongoDB**.
- Built and integrated scalable REST APIs and implemented unit/integration tests to ensure reliability.
- Collaborated closely with stakeholders and cross-functional teams to deliver production-ready features and adapt to evolving requirements.
- Provided technical consulting, handled client communications, and drove architectural decisions to ensure system robustness and scalability.

Lead Front-End Developer

Remote — Jan 2022 – Jul 2022

- Managed the front-end team, setting development standards and timelines.
- Collaborated closely with designers and backend teams for seamless UI/UX integration.
- Ensured cross-browser compatibility and responsive design implementation using Angular.

Frontend Developer

Remote — Nov 2021 – Jan 2022

- Built user interfaces using Angular, Angular Material, and React.
- Worked on TypeScript-heavy components, forms, and client-side validations.
- Maintained and updated legacy code while gradually migrating to modern architecture.

Inside 360 Algeria

Full-Stack Developer

Algiers, Algeria — Aug 2021 – Nov 2021

- Build full-stack application using modern frameworks (Angular, Node.js).
- Design RESTful APIs and manage robust databases (MongoDB, PostgreSQL).

ITexc Agency

Full-Stack Developer

Algiers, Algeria — Jan 2019 – Mar 2021

- Developed scalable, full-stack web applications from concept to deployment.
- Collaborated with designers and back-end developers to deliver user-centric solutions.
- Led API development and integration efforts across several client projects.

Education

University of Science and Technology Houari Boumediene

Bachelor's Degree in Computer Science

Higher School of Computer Science (ESI)

Preparatory Classes in Computer Science

Featured Projects

GGCorp — Online Gaming Platform

<https://www.ggcorp.me/>

- Maintained and improved the platform back-office, fixing bugs, enhancing UI, and building supporting management tools using **Laravel**, **React.js**, and **GitHub Actions** while managing **CI/CD** and **deployment workflows**

RaceLink — Motorsport Social & Opportunity Platform

<https://racelink-app.co/>

- Senior Full-Stack Engineer — built a global motorsport platform with **NestJS microservices**, **RabbitMQ**, **React.js** admin dashboard, and **Expo (React Native)** mobile app

Greadn — Data-Driven Pricing Platform for Freelancers

<https://greadn.com/>

- Frontend Engineer — developed SaaS dashboards and back-office using **React.js** and a **custom UI library**

NXT Agent — AI-Powered Real Estate Productivity Platform

<https://nxt-agent.m3.games>

- Full-Stack Engineer — built AI-driven real estate tools with **Next.js**, **Node.js**, and automation features including scraping, scheduling, and team management

NXT Profiling — AI-Powered Client Intelligence Platform <https://hub.axxellprime.com/>

- Full-Stack Engineer — created an AI-powered profiling system using **Next.js**, **Node.js**, and **MongoDB** with automated web data extraction and enrichment

Skillpilot — Learning & Skills Management Platform

<https://skillpilot.io/>

- Team Lead & Senior Software Engineer — maintained and evolved the platform for 3+ years using **Angular**, **Node.js**, **Express.js**, and **MongoDB**

Other Notable Projects

- **Workshop Management Platform**: Garage management system with online booking (**React**, **Node.js**)
- **COVID-19 Tracing App**: Contact tracing mobile app (**React Native**)
- **Safariatcom**: Travel booking platform with agency management (**React**, **Node.js**)
- **Shortly**: URL shortener with analytics and dashboards (**React**, **Node.js**)
- **FullHouseDZ / Babashop**: E-commerce platforms for Algerian SMBs (**React**, **Node.js**)
- **Brave Spirit E-learning**: Mental health e-learning platform with structured content and secure access (**React**, **Node.js**)

Certifications

- Angular Intermediate (HackerRank)
- Angular Certification (TestDome)
- JavaScript Essential Training (LinkedIn)
- Python Certification (Kaggle)
- JavaScript Algorithms and Data Structures (freeCodeCamp)
- Responsive Web Design (freeCodeCamp)
- Cisco Networking and Security Fundamentals (ICT-Towers)

Languages

- **English:** C2 – Mastery / Full Professional Proficiency
- **French:** Professional Proficiency
- **Arabic:** Native
